

Improve a life — and yours

BCBAs and LPAs needed in the greater Charlotte area

The Autism Society of North Carolina is expanding its LifeLong Interventions program, an intensive teaching service available for individuals with Autism Spectrum Disorder across the lifespan. The service delivery model is comprehensive and evidence-based, rooted in the principles of Applied Behavior Analysis (ABA). We are looking for seasoned clinicians with at least one year of experience practicing as a Board Certified Behavior Analyst in a similar role.

ASNC offers:

- Full-time, salaried positions with competitive compensation
- Paid vacation, holidays, and sick leave
- A full benefits package including: health, dental, and vision insurance; short-term disability leave; and a 401(k) package with employer match
- Compensation for travel expenses
- Supervision provided by a licensed psychologist
- Access to peer-to-peer collaboration and support
- Professional development opportunities
- The opportunity to join the state's oldest and largest autism advocacy organization, as well as a supportive and energetic clinical team

Please send your resume to:
Dr. Aleck Myers, PhD, LP, HSP; Clinical Director
