Title: Behavior Analyst/Licensed Psychologist

Location: Creedmoor, NC

Apply: send resume/cover letter to Creedmoorhires@learningservices.com

Company:

For more than 33 years **Learning Services** has been helping people with brain injuries through providing a continuum of care, including residential rehabilitation, neurobehavioral rehabilitation, supported and independent living, and therapeutic day activity programs. Don't miss the great opportunities to impact lives while advancing your career!

Position:

We are seeking a full-time, Behavior Analyst/Licensed Psychologist with Behavior Analysis training and/or experience to support Learning Services in Creedmoor, NC (broader Raleigh/Durham NC area).

Don't miss this great opportunity to impact lives while advancing your career! Apply today!

The successful candidate will provide assistance and services to the program in the areas of functional behavior assessment, effective intervention techniques, and education and training designed to maximize psychological and behavioral functioning of the residents. Participation in collection, preparation, and analysis of program data related to outcome measures is also a key role of this position. In addition, the Behavior Analyst/Licensed Psychologist augments other functional rehabilitation efforts at the program.

Key Responsibilities and Tasks:

The Behavior Analyst/Licensed Psychologist is committed to achieving the following outcomes:

- Maintaining a high level of customer satisfaction by such areas as maintaining client and family satisfaction related to quality of life issues, protecting client/family rights, and representing the program in a positive and professional manner

- Communicating comprehensive, clinically appropriate and functionally relevant information to client, families, and staff via professionally written and verbal channels
- Offering skilled resident assessment and treatment by using established principles of applied behavioral analysis, developing complete behavioral programs, overseeing daily data collection by staff, and providing individual and group intervention, skills training, and education to residents
- Supplying education and training regarding specialized program plans as needed by clients, families, and staff members

Position Requirements:

- Master's or PhD level Psychology degree
- Current Psychology licensure (or license eligible) in the State of NC
- 1-3 years experience in behavior analysis and treatment; Knowledge and experience in psychopharmacology
- 1-2 year prior experience in rehabilitation of persons with acquired brain injury.
- Ability to lift 50 pounds
- Valid Driver's license & Clean driving record
- Bilingual in English/Spanish a plus

Apply: send resume/cover letter to Creedmoorhires@learningservices.com
