

The Cardinal Center
for Behavior Analysis

COME SOAR WITH THE CARDINALS

OUR VISION: changing lives
through ABA therapy

At The Cardinal Center for Behavior Analysis, we aim to foster a positive, nurturing environment where children with autism can learn and grow. We get to know each client on an individualized level in order to tailor an ABA therapy plan to their specific needs, and use positive reinforcement to help them reach great heights.

By engaging children with autism in age-appropriate activities and using the things they love in order to motivate them, we make ABA feel less like therapy, and more like fun.
