

Making a difference in the lives of families by providing evidence-based treatment for children affected by autism spectrum disorder.

About *Butterfly Effects*

Butterfly Effects provides home-based treatment addressing the needs of children and families affected by Autism Spectrum Disorder (ASD). Butterfly Effects implements treatment based on the science of Applied Behavior Analysis (ABA).

Trust the *in-home ABA therapy specialists*

Our staff is comprised of Board Certified Behavior Analysts (BCBA) and Behavior Technicians that work with families in natural settings to develop socially important treatment goals. Butterfly Effects staff addresses behavioral challenges, functional communication skills, and social skills. Our family-centered service model combines the science of behavior change, family participation, collaboration, and compassion.

The *Butterfly Effects* difference

- *Regular family progress meetings*
- *Initial assessment to identify measurable goals*
- *Treatment in homes and communities*
- *Accommodating family scheduling*
- *Ongoing competency based staff development*
- *Family coaching and training*
- *Treatment incorporated into family routines*
- *Plans to address in home behavioral concerns*
- *Services provided by trained behavior technicians*
- *Service case managed by Board Certified Behavior Analysts (BCBA)*

The Butterfly Effects family-centered service model combines the science of behavior change, family participation, collaboration, and compassion.
