

At Mosaic, BCBAs don't...

✗ Lose sleep over "billable hours"

No billable minimums!

Mosaic has no minimum billable requirements for our BCBAs... period. We focus on providing quality supervision and care, not billing hours.

✗ Work after 6pm or on weekends

Work life balance!

You deserve a fulfilling career and life outside of work. We know our clinicians provide the best quality care when they're rested physically and mentally.

✗ Recommend hours kids don't need

What they need is what they get!

Each child is unique and deserves a program customized to meet their needs. Our BCBAs' clinical judgment dictates treatment planning, not a "one-size-fits-all" policy.

✗ Stress about poorly trained technicians

100% RBT!

We value our technician team members and ensure they are thoroughly trained and empowered to support their BCBAs in delivering world-class quality care.

✗ Feel stuck in their careers

Programs in research, training, and ops!

Your growth is our passion! Mosaic offers intensive training programs for all of our BCBAs across the domains of research, clinical training & mentorship, and clinical operations.

✗ Pay for CEUs

\$1,000 per year in CEU funds!

And you can use those funds for general leadership and personal development courses in addition to clinical training. We want you to be a great clinician and a great leader!
