

## BCBAs/LPAs in the Raleigh Area

### *Improve a life – and yours*

The Autism Society of North Carolina (ASNC) is growing our clinical team! We have positions open in our ABA program for individuals with autism. Caseloads are ethically and carefully managed to a maximum of 6-8 clients. We offer the opportunity for growth and expansion of roles into other areas of our Clinical Department, such as behavioral consultation and training/coaching to a variety of groups across the state. We know many clinicians appreciate the opportunity to diversify their workload by using their skills in different areas. Our department is uniquely suited to help you reach those goals.

### **ASNC offers:**

- Full-time, salaried positions with competitive compensation
- Full benefits package including: health, dental, and vision insurance; short-term disability leave; and a 401(k) package with employer match
- Paid vacation, holidays, and sick leave for full-time employees
- Eligibility for student loan forgiveness under the Public Servant Student Loan Forgiveness Act
- Compensation for travel expenses
- Small caseloads and case management expectations that align with best practice recommendations outlined by CASP
- Professional development opportunities and ongoing peer to peer collaboration.
- CEU, certification, and licensure reimbursement
- The option for flexible schedules, including part-time and hourly employment options
- The opportunity to join the state's oldest and largest autism advocacy organization, and a supportive and energetic clinical team
